

1 August 1963

REPLY TO
ATTN OF: MEDICAL SECTION

SUBJECT: Monthly Activities Report for the Month of July 1963

TO: Commander, WRSP-IV

1. The general health of the squadron remained good throughout the month of July. There was a high incidence of common cold; complications were minimal.
2. There were ☐ outpatient visits to the squadron surgeon during this reporting period. Patient breakdown was as follows:

3.

Hospitalizations - 0

4. Pilot medical reports from Lovelace Clinic were forwarded to this station from headquarters. Results as follows:

STATINTL

5. DNIF -

STATINTL [] - Four (4) days, back sprain (Rhomboid muscle group, left).
Five (5) days, Gingivitis, acute.
Seven (7) days, Bronchitis and sinusitis, non-purulent.

6. The last E and E lecture included three (3) hours of "Primitive Medicine and Medical Self Help". Further instruction will be given.

STAT 7. Military and company personnel that were not on leave or TDY were given physical examinations during the week of 22-26 July. Of the [] requiring this exam [] were accomplished. The examinations fulfill both the 18 month interval and pre-chamber indoctrination requirements. Company physicals will be forwarded to headquarters upon receipt of laboratory results.

STAT 8. The chamber indoctrinations still are unaccomplished. The lecture, to be given to all those who are not in possession of current physiologic training cards, [] scheduled for 8 August 1963. Following this lecture IAC personnel will receive physical examinations and chamber indoctrination at their plant by [] STATINTL Military and company personnel will take chamber training at Edwards AFB.

STATINTL 9. An analysis has been made of the medical problems involved in staging to a remote site with an extremely hostile natural environment and no outside assistance. Recommendations regarding this situation were forwarded to headquarters via the unit commander. At present the medical section is not prepared for this type staging.
